Mode Of Transportation Needed

Non-Medical Transportation (NMT)

Non-Medical Transportation is travel by bus, passenger car, taxicab or other forms of public or private conveyance. A PCS form is not required. Member may contact the health plan to arrange ride.

Non-Emergency Medical Transportation (NEMT)

Non-Emergency Medical Transportation is available to obtain medically necessary services when the patient's medical/physical condition does not allow them to travel by bus, passenger car, taxicab or other forms of public or private conveyance.

Please check all applicable modalities, multiple modalities may be requested:

Ambulance (check all that apply):

- Transfer between facilities that requires continuous intravenous medication, medical monitoring, or observation
Transfer from an acute care facility to another acute care facility
Transport for member who has recently been placed on oxygen (does not apply to members who carry their own oxygen for continuous use)
Chronic conditions requiring oxygen and medical monitoring

Litter/Gurney Van (check all that apply):

- Requires prone or supine position; incapable of sitting for the period of time needed to transport, and requires specialized safety equipment over and above what is normally available in passenger cars, taxicabs, or other forms of public transportation
Post-operative, stable members who cannot tolerate sitting upright for the time required for transport from pick-up point to destination
Bed Bound
Spica cast

Wheelchair Van (check all that apply):

- Requires wheelchair or assistance to and from a residence, vehicle and place of treatment because of a disabling physical or mental limitation
Severe mental confusion
Paraplegia
Dialysis recipient
Chronic conditions requiring oxygen, but do not require monitoring

Air Transport

**Diagnosis** (Must support the need for Non-Emergency Medical Transportation)**Diagnosis:****ICD 10 Code(s):****Function Limitations Justification** (Required)

Please document the patient's limitations and provide specific physical and medical limitations that preclude the patient's ability to reasonably ambulate with assistance or be transported by public or private vehicles.
